**SURFACE DISINFECTANT  
AND AIR SANITIZER**

**Kills 99.9% of Germs & Viruses\* on hard, non-porous surfaces!**

OUST® SURFACE DISINFECTANT & AIR SANITIZER

Are you looking for a product that can both sanitize the air and disinfect hard, non-porous surfaces? Oust® Surface Disinfectant and Air Sanitizer does both jobs with just one product. It disinfects in 5 minutes; sanitizes in 30 seconds on hard, non-porous surfaces.

Oust® Surface Disinfectant and Air Sanitizer disinfects and deodorizes by killing common germs and controlling their odors. Eliminates odors caused by bacteria: Oust® works to eliminate odors in the air by killing odor causing bacteria. It also prevents odors at the source caused by germs, bacteria and mildew.

- **Two-In-One** – Surface Disinfectant & Air Sanitizer in one
- **Disinfects in 5 minutes; Sanitizes in 30 seconds** on hard, non-porous surfaces
- **Surface Disinfectant** – Kills greater than 99.9% of germs, bacteria, viruses and fungi on hard, non-porous surfaces\*
- **Approved for Hospital Use** Meets AOAC Germicidal Spray Product Test standards for hospital aerosol disinfectants.
- **Air Sanitizer** – Helps reduce the number of airborne bacteria leaving the treated area smelling clean and fresh
- **Multiple Applications** – Can be used on a variety of surfaces including toilet seats, doorknobs, garbage cans, countertops, lockers, sports equipment and any other hard, non-porous surface.
- **Variety of Fragrances** – Two fragrances available: Clean Scent & Outdoor Scent
- **EPA Registered** – EPA Reg. No. 4822-548

\* See label for organisms and directions on how to sanitize & disinfect.

**Directions for Use:**

Shake well before each use. To temporarily reduce airborne bacteria and eliminate odors in an average size room, close all doors, window and air vents and spray product upward in the center of the room for 10 seconds. For maximum effectiveness, relative humidity should be between 45% and 70%. Resume normal ventilation after spray has settled.

Pre-clean hard, non-porous surfaces before using this product. Wherever food contact is likely, rinse surface with tap water after using.

**To disinfect hard, non-porous surfaces:** Spray pre-cleaned surface until wet. Allow product to remain on surface for 5 minutes.

**To sanitize hard, non-porous surfaces:** Spray pre-cleaned surface until wet. Allow product to remain wet for 30 seconds.

**To inhibit the growth of mold and mildew and their odors:** Spray pre-cleaned surface until wet. Let treated surface air dry. Re-apply as necessary.

**Kills the following:**

Bacteria	Viruses	Fungi
Staphylococcus aureus (Staph)	Rotavirus	Trichophyton mentagrophytes
Salmonella enterica	Respiratory Syncytial Virus (RSV)	- the fungus that causes athlete's foot
Listeria monocytogenes	Influenza A (flu)	
Enterococcus faecalis	Herpes Simplex Virus Type 1	
Escherichia coli (E. Coli)	Herpes Simplex Virus Type 2	
Enterobacter aerogenes	Human Coronavirus	
Campylobacter jejuni	Parainfluenza A Virus Type 3	
Pseudomonas aeruginosa
